

Our Services

**CONSTRUCTION
& PRODUCTION**

A Quality Company

Quality...Is In All We Do.

As one of the leading entities in the Quality Companies family, **Quality Construction & Production** (QCP) is a leader in onshore and offshore fabrication, maintenance and construction, offering highly skilled personnel and superior services to the domestic and international oil and gas industry. Founded in 2001, Quality Construction & Production has become one of the fastest growing companies in America, having earned coveted positions in Entrepreneur Magazine's Hot 500 as well as Acadiana's Top 50 Privately Held Companies lists.

Offering the finest in construction and fabrication services on the Gulf Coast, QCP's onshore fabrication services include: spool piping, production modules, manifolds, deck extensions and riser guards and clamps. QCP's offshore services include: hook-ups, facilities maintenance and upgrades, compressor installations and field welding. The QCP Scaffold Division specializes in providing safe, innovative and cost-effective solutions to the offshore and marine sectors of the oil and gas industry.

Quality Construction & Production has recently grown and diversified into the Industrial/International arena, where we are committed to expanding our construction and fabrication services along the Gulf Coast, as well as focusing on alternative energy projects within the United States and abroad.

COMPANIES

Quality Construction & Production

As the need for oilfield construction and production has remained, Quality Construction & Production has prevailed – working to successfully and efficiently fill that void in the industry. QCP’s experience and expertise is in the Gulf of Mexico and international waters, so our focus is on companies producing in both of those arenas.

Additionally, QCP supplies qualified, safety-minded contract labor. With Quality Construction & Production, you will receive the best construction superintendents in the industry. QCP will complete your job on time and on budget, with the option for contract labor. Given the opportunity, QCP will maintain or upgrade your facility in top working order, as well as provide crews with extensive experience in offshore hook-ups.
